

# **Implications of ‘Net-Zero Emissions by 2050’ for the Hydrocarbon Industry: A Case Study of Selected Mature Petroleum Jurisdictions**

**Professor Tina Soliman Hunter**

Professor of Energy Law, Macquarie University, Australia

**Jordie Pettit**

Research Associate, The Centre for Energy and Natural Resources Innovation and Transformation, Macquarie University, Australia

**Dr Madeline Taylor**

Senior Lecturer, Energy Law, Macquarie University, Australia

## Table of Contents

Table of Contents.....	2
1 INTRODUCTION .....	4
2 THE HOLY GRAIL: NET-ZERO EMISSIONS BY 2050 .....	7
2.1 Introduction.....	7
2.2 Conceptual Overview and Analysis.....	9
2.2.1 What Does Net-Zero Mean? .....	9
2.3 Changes Required to Get to NZE by 2050 .....	11
2.3.1 Supply and Demand Changes .....	11
2.3.2 Policy Incentives .....	14
2.4 Impact of Net-Zero Carbon Emissions on the Hydrocarbon Industry – Challenging the Status Quo .....	17
2.4.1 International Energy Policy and the NZE Pathway .....	17
2.5 Climate Change Litigation.....	22
2.5.1 Conclusion .....	25
2.6 Implications of NZE2050 on Energy Security.....	25
3 HYDROGEN IN A NET-ZERO EMISSIONS WORLD.....	26
3.1 Introduction.....	26
3.2 The Hydrogen Rainbow .....	26
3.3 Role, Value and Use of Hydrogen .....	27
3.4 Hydrogen and the Existing Hydrocarbon Industry .....	28
3.4.1 Blue Hydrogen .....	29
3.4.2 Law Reform .....	32
3.4.3 Opportunities.....	33
3.4.4 Infrastructure Challenges .....	35
3.5 Hydrogen in Mature Petroleum Jurisdictions .....	40
3.5.1 The European Union, North Sea and UK .....	41
3.5.2 Australia.....	45
3.5.3 Canada.....	49
3.5.4 Current Activities, Opportunities and Threats in Australia and Canada 54	
3.5.5 USA.....	56
3.6 Conclusion .....	58
4 Where Does All the Carbon Go? Carbon Capture for CCUS and EOR.....	58
4.1 Introduction.....	58
4.2 Sequestering Carbon Underground – Benefits and Challenges.....	60
4.2.1 Overview of Carbon Sequestration.....	60
4.2.2 The Benefits and Challenges of CCUS.....	61

4.3	Carbon Injection, the Hydrocarbon Industry and NZE2050: Current and Future Challenges .....	63
4.3.1	CO <sub>2</sub> for EOR.....	63
4.3.2	Underground Sequestration of CO <sub>2</sub> .....	64
5	Conclusion: Implications of NZE2050 for the Hydrocarbon Industry. ....	68
6	BIBLIOGRAPHY .....	70
